Dear Hiring Manager,

I am writing to express my interest in the Software Engineer position. As an Information Technology professional with an Advanced Diploma in Information and Communication Technology and practical experience in Java development, enterprise application development, and full-stack software engineering, I am excited about the opportunity to contribute to your development team.

Over the past several years, I have worked on the design, development, deployment, and maintenance of enterprise software solutions across different organizations. At MOPAS, I have been involved in developing business applications, including the Travooz Hotel Management System (HMS) and Travooz OTA platform. My responsibilities include developing backend services using Java and Spring Boot, designing RESTful APIs, implementing authentication and role-based access control, integrating business modules, and managing relational databases.

In addition to my role at MOPAS, I work remotely as a Mobile Application Developer with Crox Studio in Belgium and as a Full Stack Developer Assistant at eLabMan, where I contribute to the development of Smart250 Academy and other digital platforms. These experiences have strengthened my ability to collaborate in distributed teams, build scalable applications, and deliver reliable software solutions.

My technical skills include Java, Spring Boot, JavaScript, TypeScript, Python, React, Node.js, MySQL, PostgreSQL, MongoDB, Linux, Docker, Git, and REST API development. I also have foundational knowledge of machine learning and enjoy continuously learning new technologies and best practices to improve the quality and performance of software systems.

Beyond technical expertise, I value teamwork, problem-solving, and continuous improvement. I enjoy working closely with colleagues and stakeholders to transform business requirements into efficient, secure, and maintainable software solutions.

I am eager to leverage my technical skills and experience to benefit your team.

Thank you for considering my application. I look forward to the opportunity to speak with you.

Yours sincerely,

NIYO Nathanael
